

E-Z PAINT MIXER

Self-propelled bulk mixer for paints and coatings.

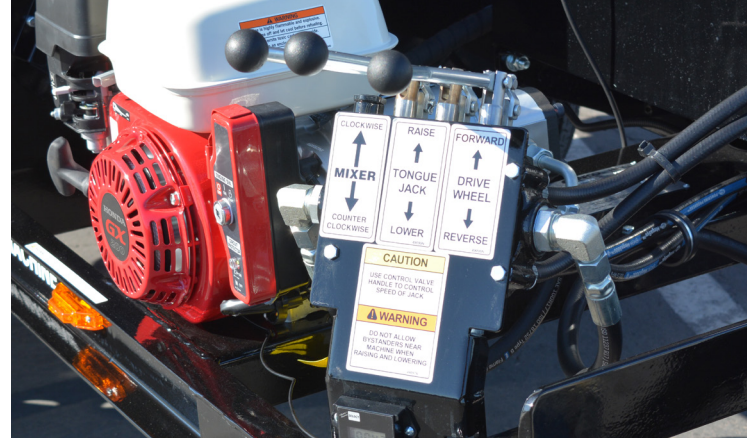

Power Drive Wheel and E-Z Steer Assembly

The **EZ Paint Mixer** combines performance, power, mobility and safety to make any paint or industrial coating project more productive.

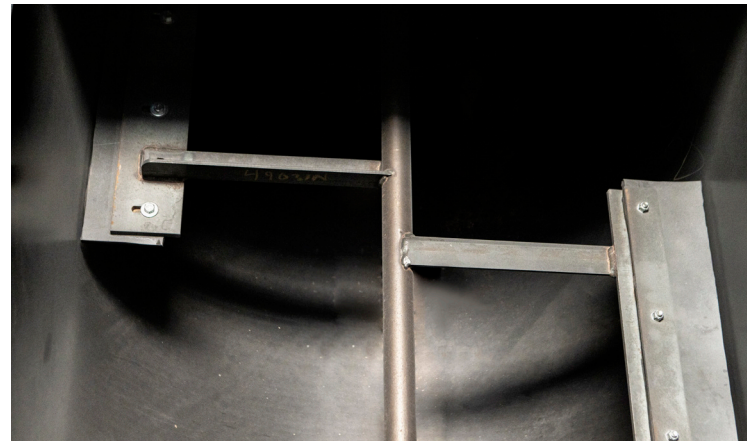

The self-propelled trailered unit allows for the bulk mixing and distribution of materials where they are needed on the job site. Transport your surfacing material from your staging area to your work area effortlessly.

With a variable speed agitator, the **EZ Paint Mixer** allows for perfect mix properties to be attained ensuring popper material performance. The innovative mixer design allows for quick color changes and clean up, reducing downtime and keeping the job site neat and tidy.

Manufactured in the USA by Crafcro Inc.

E-Z Operating Controls

Heavy-Duty, Full Sweep Agitation System

Feature

Benefit

1800 lbs. (816 kg) Max Mixer Capacity 244 Gal. (924 L) Max Tank Capacity	Mix gallons of material in minutes- no extra drums or equipment needed.
